# RUN THE

# WATER

Water is an impressive force of nature that makes you feel part of something bigger, inspiring you to push your limits. When you enjoy your favorite oceans and lakes, it's only natural to disconnect from the troubles of the outside world and connect with something far more powerful. Only on a Yamaha WaveRunner® can you unlock the true power of the water and satisfy that desire for adventure. So take advantage of an ocean of opportunities as you leave the dock and explore the water. Whether you're looking for an experience that will take you out of your comfort zone, or just a way to escape from everyday life, you can always trust Yamaha WaveRunners to expose you to a whole new world.

Our respect for the water runs as deep as the oceans and lakes themselves. Because when we live for the water, it becomes our responsibility to protect it. That's why we believe the right thing to do should guide everything we do. Yamaha Rightwaters™ is a leading national marine sustainability program. With a focus on sustainable manufacturing practices, responsible product use and marine stewardship, we are able to preserve and maintain a healthy ecosystem – one that generations from now will be able to enjoy as much as we do. Because when we feel a connection to the water, it becomes more than just our responsibility to protect it, it becomes our privilege. Find out how you can do your part by visiting [yamahawaverunners.com/yamaha-rightwaters](http://yamahawaverunners.com/yamaha-rightwaters).

# FOLLOW THE WATER

Riding a Yamaha WaveRunner empowers you with the freedom to go anywhere the water calls you. It could be pulling up to a quiet sandbar on your way to explore the mangrove tunnels around Big Pine Key. The endless waterways around miles of pristine, uncrowded beaches that make the Forgotten Coast a place where you can strengthen your connection to the water effortlessly. Or cast your line, surrounded by the Smoky Mountains where the waters are calm and the trout are plentiful. Whichever body of water you want to explore, the trusted Yamaha Marine Engine at the heart of every Yamaha WaveRunner that brings you closer to the water.

# VERSATILITY ON THE WATER

You can always count on Yamaha accessories to elevate your experience on the water. Like the RecDeck™, an integrated platform for ultimate versatility. Pack for every paradise with options that allow you to fish, tube, sunbathe, and explore while becoming more in tune to the water. Listen to the soundtrack of your adventure with one of our premium speaker packages while you explore uncharted waters. Take your level of customization to the next level with our versatile Multi-Mount System, ideal for attaching your favorite devices and accessories, including Fish Finder, phone, GPS, and GoPRO® thanks to a simple RAM® component. The thoughtful design and customizable options of our Yamaha WaveRunners enhance your overall experience and strengthen your unique connection to the water.
